- and an Industrial Perspective:
 - Frederic Giancesello, ST Microelectronics

— Pierre-Yves Challier, Cadence

- Thierry Petit, ST Microelectronics

— Hannes Medelius, Ericsson AB

Some Logistics!

- Today's program is at Grand Hotel including Lunch.
- Dinner in the Main Building of Lund University.
- Tomorrow's programs is at the Faculty of Engineering, Lund University.

The Hosts

From VINNOVA's evaluation 2011: "SoS builds on strong long-term relations with top industry partners in the international arena in the Center's strategic area which is **highly relevant to the Swedish economy**. The SoS team represents an **impressive range of research talent and experience**, including many staff with international records of achievement and clearly shows that **they can compete on an international level**."

During the breaks...

...if you get a minute during the breaks there are two slide shows. One presenting the grants...

...and one with introductions to tomorrow's poster sessions.

Cellular Systems I

- *Methodology and Tools for Automatic ECO*
by Pierre-Yves Challier, Cadence and
Thierry Petit, ST Microelectronics
- *Cellular Electronics - Baseband Processing*
by Liang Liu, Lund University
- *A Linearized 0.7 to 3 GHz Receiver Front-End*
by Anders Nejdell, Lund University

Research Activities in Baseband Processing

Research Projects:

- Multi-mode *DEF* using SDR platform
- Improved-MP *channel estimator* for LTE
- Link-adaptive *channel pre-processors*
- Multi-mode soft-output *MIMO detector*
- Multi-task *reconfigurable cell array* for LTE-A
- Chip measurements for FTN *iterative decoder*
